Comments:

I am concerned about the fallout of the many gases mentioned at the meeting of 1-17-12 @ Athens,

I am also concerned about the watershed shown on the Pyrate project map. I am downstream of it next door.

I am also excited about the 12" water well on the proposed property that is proposed to supply 157,000,000 gallons of water per annum. This water is to be pumped to Athens City, & then sold back to Pyrate? No Public meeting has

(over)

RECEIVED

Continued from other side

been held on this. We already have some irrigation wells for farm crop + some artesian wells have dried up. We had a long dry summer.

These comment concerned are to:

James Capps - Branch Chief
for Environmental Protection Div.

to - Herin Farrell
Bill Frechette
Clay Burdette
Water Shed Branch

I believe you People are there to protect us and am there fore asking you to help us.

Please !!!

do not issue these people a Permitt!

Thomas S. Burke
