Re: SIP Application No. 19518, dated March 4, 2010
Yellow Pine Energy Company, LLC, Fort Gaines, AIRS: 06100001

Dear Mr. Sajer:

Technical review of the above referenced application for the modification of Permit Number 4911-061-0001-P-01-0 has begun. As a result, the Division has the following comments:

1. Table A-1 of the application indicates that permits for Cargill (RBLC ID NE-0037) and Ultrasystems Inc (RBLC ID CA-0018) were reviewed as part of the RACT/BACT/LAER Clearinghouse (RBLC). However, these sources could not be located in a review of the RBLC. Please provide the permits for the facilities in question for Division to review.

The Division requests a response to these comments within thirty (30) business days following receipt of this letter. If you have any questions or concerns regarding your application, please contact me at (404) 362-2700 or via e-mail at tyneshia.tate@dnr.state.ga.us. Any written correspondence should reference the above application number that has been assigned to this application and the facility's AIRS number.

Sincerely,

Tyneshia Tate
Environmental Engineer
Stationary Source Permitting Program
