RE: PSD Application for Power Plant Located Near Bradwell Bay and Saint Marks Class I Areas in Florida

Dear Ms. Silva:

Enclosed is a copy of the above-referenced Prevention of Significant Deterioration (PSD) permit application submitted by Yellow Pine Energy Company, LLC for constructing and operating a nominal 110-megawatt (MW) biomass-fired power plant. Class I areas within 200 kilometers (km) of the proposed site include the Bradwell Bay Wilderness Area (in Florida approximately 165 km southeast of the project site) and the US Fish and Wildlife Service for the Saint Marks National Wilderness Area (in Florida located approximately 180 km southeast of the project site). We would appreciate receiving any comments you may have on the permit application at an early date.

Feel free to contact me at (404) 362-2700 if you have any questions.

Sincerely,

Tyneshia Tate
Environmental Engineer
Stationary Source Permitting Program
