

ENVIRONMENTAL PROTECTION DIVISION
PUBLIC ADVISORY
WATERSHED PROTECTION BRANCH

November 4, 2015
Advisory Issue Date

Cobb County
City/County

December 4, 2015
Advisory Close Date

BV-033-15-16
Control Number

Crawford Residence-Pond Dam Rehabilitation
Activity

This advisory is issued to inform the public of a receipt of an Application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 MLK Jr., Dr., SW Suite 1462 East, Atlanta, Georgia 30354

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7.05 (2)(A-J)}: A

Description and Location of Proposed Activity:

Applicant proposes to impact a total of 368 linear feet (12,294 ft²) of stream buffer along an unnamed tributary to Allatoona Creek to repair an existing dam on private property. Impacts include increasing the toe of the slope to meet Cobb County standards, removal of trees and vegetation on the dam, and installation of an emergency spillway. The project is located on Stilesboro Rd. approx. 6 miles from the intersection of Old Hwy. 41 and Stilesboro Rd.

Name and Address of Permit Applicant:

Dr. Marcus Crawford
Delany Properties LLC
3450 Acworth Due West Rd.
Bldg. 200 Suite 220
Kennesaw, Georgia 30144

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
