

ENVIRONMENTAL PROTECTION DIVISION
PUBLIC ADVISORY
WATERSHED PROTECTION BRANCH

March 10, 2016
Advisory Issue Date

Dunwoody/
City/County

April 11, 2016
Advisory Close Date

BV-044-16-02
Control Number

Wildcat Creek Stream Restoration
Activity

This advisory is issued to inform the public of a receipt of an Application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive, S.W., Suite 1456, Atlanta, Georgia 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7.05 (2)(A-K)}: B

Description and Location of Proposed Activity:

The project involves buffer encroachments necessary to restore and enhance a highly entrenched and unstable stream segment. Activities will include restoring the streams natural pattern, profile and dimension. The project also involves stream buffer restoration and enhancement with native riparian buffer plantings. The project site is located near Roberts Drive in the City of Dunwoody and will require 286 linear feet of buffer impacts along Wildcat Creek.

Name and Address of Permit Applicant:

Mr. Alan Mothner
Dunwoody Nature Center
5343 Roberts Drive
Dunwoody, Georgia 30338

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
