March 7, 2016
Advisory Close Date

BV-144-15-03
Control Number

Domino Seawall
Activity

This advisory is issued to inform the public of a receipt of an Application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive, S.W., Suite 1456, Atlanta, Georgia 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7.05 (2)(A-K)}: A

Description and Location of Proposed Activity:

The project involves buffer encroachments necessary to construct 100-linear feet of a concrete seawall to address an existing erosion problem along Lake Nottely. Mitigation requirements have been met in accordance with the Streambank and Shoreline Stabilization Guidance. An area immediately adjacent to the retaining wall will be re-vegetated using native riparian vegetation. The project site is located near Fleenor Road in Union County and will result in 100 linear feet of buffer impacts along the shoreline of Lake Nottely.

Name and Address of Permit Applicant:

Mr. Andrew Domino
284 Dixie Drive
Blairsville, Georgia 30512

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
