RE: Plant Washington

Dear Dr. Carol A. Couch;
My family is in support of permitting and building the coal fired Plant Washington, Sandersville, GA. My family has lived many generations in Sandersville but eventually moved for economic reasons. I feel it is important to diversify our energy resources and to use US fuels like coal. We need to start investing in the United States and improving the lives of the citizens of Georgia. Thank you for your consideration.

Sincerely,

Dale S. Wiley, PE and family
