Re: Removal from the Hazardous Site Inventory  
Former Vulcan Performance Chemicals, HSI #10770  
Dalton, Whitfield County, GA  
Tax Parcel ID 13-044-09-000

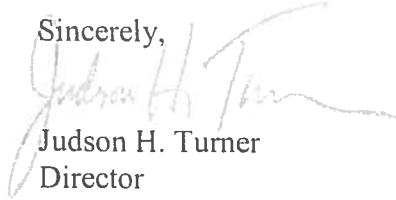

Dear Mr. Degges:

The Georgia Environmental Protection Division (EPD) has received the August 15, 2014, Voluntary Remediation Program (VRP) Compliance Status Report (2014 VRP CSR), which has been submitted by Haley & Aldrich on behalf of Legacy Vulcan Corporation (Vulcan) pursuant to the Georgia Voluntary Remediation Program Act (the Act) O.C.G.A. 12-8-100. Based on EPD's review of this document, EPD has determined that the CSR is complete and concurs that the above referenced site is in compliance with the Type 1 residential Risk Reduction Standards of Section 391-3-19-.07 of the Rules for Hazardous Site Response (Rules) for both soil and groundwater. Therefore, EPD has determined that the above referenced site has met the requirements of the Act for Tax Parcel 13-044-09-000. Furthermore, EPD is designating this site as not needing further action and is removing this site from the Hazardous Site Inventory in accordance with §391-3-19-.05(4)(b) of the Rules of Hazardous Site Response as of the date of this letter.

As required by §391-3-19-.06(5)(f) of the Rules, a public notice announcing this determination shall be published in the Daily Citizen News.

If you have any questions regarding this matter, please contact Kevin Collins of EPD's Response and Remediation Program at 404-463-0530.

Sincerely,

  
Judson H. Turner  
Director
