

Dear Mr. Capp, RECEIVED

APR 9 2009

Here are some more
petitions requesting
hearings in the Atlanta
area on the application
for coal-fired plants.
AIR PROTECTION BRANCH

Since we consumers cannot
really choose our energy
sources, it seems appropriate
to have a voice up front.

Re: Public hearing schedule for Plant Washington

Cc: Dr. Carol Couch, Director, Georgia Environmental Protection Division (EPD)

Dear Mr. Capp,

As noted in a recent news articleⁱ, your division will soon begin holding hearings regarding the construction of Plant Washington. As mentioned in a recent Savannah news articleⁱⁱ, this coal plant is a risky investment meant to send power to the metro Atlanta area.

As the permitting of this plant affects more than the people and resources within Washington County, I am requesting that EPD hold permit hearings in the following places: Atlanta or Cobb County, Augusta, Macon, and Coastal Georgia. So that a sufficient segment of the population may attend, please hold the hearing at a time members of the public may attend, and give at least 30 days notice to local newspapers and groups regarding the date of the hearing.

I live in the Atlanta area and it would be most convenient for me to attend a hearing in Atlanta.

Thank you for your timely response and assistance on this matter. I look forward to receiving your response.

Signed,

Eva Hansen

MAR 30 2009

AIR PROTECTION BRANCH

March 26, 2009

Dr. Carol Couch
Director, EPD
Department of Natural Resources
4244 International Parkway, Suite 120
Atlanta, Georgia 30354

Dear Dr. Couch:

I am resident of Jefferson County, which is 25 miles down wind from the proposed Plant Washington near Sandersville. I was concerned to learn that EPD will not hold a public hearing in any of the adjacent communities that will be impacted from the air pollution from the proposed plant.

The permitting of this plant affects more than the people and resources within Washington County. As a citizen and a taxpayer of this state, I am requesting that EPD hold permit hearings in all counties in East Central Georgia that will be impacted by the millions of tons of pollution emitted by this unnecessary coal fired power plant.

Approximately 12-15 counties make up the area known as East Central Georgia. I would prefer a public hearing in each of the counties, however, as a resident of Jefferson County, I would request that a hearing be held here. We have several good areas to hold such a meeting. The Jefferson County High School or the Jefferson County Court House.

Your consideration and timely response on this matter will be greatly appreciated.

Sincerely,

Larry M. Hodges
