Permit Number 040-008D(MSWL)  
Annual CCR Management and Dust Control Report – Approval  
Submittal ID: 831377**

Dear Mr. Gamble:

The Georgia Environmental Protection Division (EPD) received your Annual CCR Management and Dust Control Report (Report) for the subject site on March 27, 2024. The Report describes operational activities from the previous year to demonstrate compliance with the CCR Management Plan initially approved by the EPD on March 28, 2019. Based on a review of the data submitted, the 2023 Report for the subject site is hereby approved.

The Report indicates that as of December 12, 2023, the facility has ceased receiving CCR waste, and Crisp County requests the termination of the CCR Management Plan for Crisp County US Hwy 41 MSW Landfill. To initiate the termination process, please submit a minor modification request through the Georgia EPD Online System (GEOS) to update the Design and Operations (D&O) plan. The revised D&O plan should provide an overview of the disposal of CCR at the landfill, including pertinent details such as the location, duration, and quantity of CCR previously disposed of. Additionally, it should clearly state that the CCR Management plan is no longer applicable to the subject site.

If you have any questions regarding this letter, please contact the undersigned.

Sincerely,

*Keith Stevens*
