Re: **Application for Scrap Tire Processor Permit**
GEOS Submittal ID No. 842581
Barco, LLC Scrap Tire Processor Permit

Dear Mr. Cash:

Your application for a Scrap Tire Processing Permit has been reviewed and approved. Your Permit is attached and includes your permit No. **071-402118-STP**, and the conditions of the permit. Compliance with the provisions of the Comprehensive Solid Waste Management Act and Rules for Solid Waste Management, as amended, is expected.

Please note that condition number twelve (12) of this permit states, **"The owner or operator of the scrap tire processing facility shall submit a quarterly report to the Division. The quarterly report shall be submitted on the 30th day of April, July, October and January. The report must be complete and must be submitted electronically using the Georgia EPD On-line System (GEOS)."**

For more information on submitting reports online, please visit <http://epd.georgia.gov/geos/>.

All manifests shall be maintained at the facility for a minimum of three (3) years. All records required by the conditions of this Permit shall be made available to EPD for inspection during normal business hours.

The issuance of this Permit does not relieve the Permittee of any obligation or responsibility for complying with the provisions of any other laws or regulations of any Federal, Local, or State authority. Nor does the issuance of this Permit grant the Permittee any license to operate in any other capacity besides that which is stated within the aforementioned Rules.

This Scrap Tire Processing Permit is now in effect; however, under Georgia law it is subject to appeal for a period of thirty (30) days following its issuance.

If you have any questions regarding the permit, please contact Richard Posey at (470) 604-7137.

Sincerely,

A handwritten signature in cursive script that reads "Lena Sassone".

LAND PROTECTION BRANCH

Scrap Tire Processing Permit

Facility Name: **Barco, LLC**

Facility Address: **280 Pequanon Drive
Tallapoosa, GA 30176**

In accordance with the provisions of the Georgia Comprehensive Solid Waste Management Act, and the Rules promulgated pursuant thereto, this permit is issued for the operation listed above.

All statements and supporting data submitted to the Environmental Protection Division (EPD) have been evaluated, considered and relied upon in the issuance of this permit. These documents have been assembled into an Operation Plan for the facility.

This permit to operate is conditioned upon **Barco, LLC** complying with the provisions of the Georgia Comprehensive Solid Waste Management Act, the Rules of Solid Waste Management (391-3-4-.19), adherence to the approved Operation Plan, and attached conditions of operation, which are hereby made a part of this permit.

This permit is now in effect; however, under Georgia law it is subject to appeal for 30 days following issuance and is subject to modification or revocation on evidence of noncompliance with any of the provisions of the Georgia Comprehensive Solid Waste Management Act or any of the rules promulgated pursuant thereto, or with any representation made in the above mentioned application or the statements and supporting data entered therein or attached thereto, or with any condition of this permit.

Jeffrey W. Cown

**Jeffrey W. Cown, Director
Environmental Protection Division**

Conditions of the Scrap Tire Processing Permit (Page 1 of 2)

1. The Operation Plan submitted by the Permittee and approved by the Division on July 30, 2024, is hereby made a part of this permit, and the facility shall be constructed and operated in accordance with the approved Operation Plan. Conditions of this permit supersede any provisions of the Operation Plan which may conflict. Any proposed modification to the facility and/or operations shall not be implemented until approved by the Division.
2. This permit is valid for the location listed above and is not transferable to any other location.
3. The facility is permitted to store up to the total amount of scrap tires and tire products in the areas designated in accordance with the approved Operation Plan.
4. Any residuals from scrap tire processing shall be managed so as to be contained on-site and shall be controlled and disposed of in a permitted solid waste handling facility or be properly recycled.
5. Prior to beginning scrap tire processing, the Division must be provided with written certification by a professional engineer licensed to practice in Georgia that the facility has been constructed in accordance with the approved permit.
6. The facility shall install and maintain adequate control measures to prevent discharge of pollutants from tire storage areas into waters of the State or the United States.
7. The facility owner or operator will control mosquitoes, rodents and other vectors to protect public health and welfare.
8. The facility will be bermed or given other adequate protection to keep liquid runoff from a potential fire from entering the waters of the State.
9. The facility is permitted to accept only the types of tires specified in the approved Operation Plan.
10. The permittee shall arrange for an additional fire safety survey as part of any modification request that would increase the amount of scrap tires in storage.
11. The operator of the facility shall keep the most recent copy of the approved Operation Plan readily available to personnel responsible for the daily operation and compliance of the facility. The emergency response procedures of the Operation Plan shall be updated at least annually or upon changes in operations at the facility.
12. The owner or operator of the scrap tire processing facility shall submit a quarterly report to the Division. The quarterly report shall be submitted on the 30th day of April, July, October and January. The report must be complete and may be submitted electronically using the Georgia EPD On-line System (GEOS).

Conditions of the Scrap Tire Processing Permit (Page 2 of 2)

13. The owner shall operate the facility in accordance with all other applicable Local, State and Federal rules, regulations and ordinances at all times.
14. The scrap tire processor facility shall not accept any scrap tires if it has reached its approved or permitted storage limit. At least 75 percent of both the scrap tires that are accumulated by the scrap tire processor facility each calendar quarter, and 75 percent by weight or volume of all scrap tires previously received and not reused or properly disposed during the preceding calendar quarter shall be removed from the facility for disposal or recycling from the facility during the quarter or disposed of in a solid waste handling facility approved to accept scrap tires.
15. The owner or operator of the facility must maintain copies of manifests for three years for all tires received at the facility. The manifests must be made available for inspection by EPD during normal business hours. Records must also be maintained for three years for all product and residuals shipped off-site.
16. The permittee shall implement closure procedures in the approved Operation Plan if the facility closes. All scrap tires will be processed or properly removed from the facility to a permitted point of final disposition within 30 days of closure. All products will be removed from the facility within 45 days. Manifests will be retained in the facility records if final disposition is to a permitted solid waste handling facility or scrap tire processing or sorting facility.
17. The facility owner will maintain financial assurance in the amount of \$20,000 to ensure compliance with the Act and Rules.
