RE: Delisting of Property from Hazardous Site Inventory
Former Dynamic Metals Property
690 DeKalb Avenue (Tax Parcel 14-0020-0000-202-4), Atlanta, Fulton County, Georgia 30312
One of Two Parcels Comprising HSI Site No. 10704 and VRP1286282662

Dear Mr. Helmstetler:

The Georgia Environmental Protection Division (EPD) has reviewed the Voluntary Remediation Program (VRP) Compliance Status Report (CSR) dated June 16, 2011 for the above referenced Property, which is one of two properties listed on the Georgia Hazardous Site Inventory (HSI) as HSI #10704 and as VRP site VRP1286282662 (670 DeKalb Avenue Site). Based on that review, I have determined the VRP CSR is complete and concur with your certification of compliance that soil is in compliance with Type I risk reduction standards, and that a release to groundwater exceeding a reportable quantity did not exist at the time of enrollment in the VRP. Therefore, I am designating this property as not needing further action and I am removing it from the Hazardous Site Inventory in accordance with §391-3-19-.05(4)(b) of the Rules of Hazardous Site Response (the Rules) and §12-8-107(f) and (g)(2) of the Georgia Voluntary Remediation Act (the Act) as of the date of this letter. As required by §391-3-19-.06(5)(f) of the Rules, a public notice announcing this determination shall be published in the Fulton County Daily Report.

All monitoring wells installed for the purpose of corrective measures and/or groundwater monitoring at the subject Property, with the exception of MW-403 may be decommissioned as proposed in the CSR and in accordance with §12-5-134(6)(G) of the Georgia Water Well Standards Act of 1985, *et. seq.* with documentation of procedures used submitted to the Response and Remediation Program within 60-days of completion of well decommissioning. However, groundwater conditions in the northwestern corner of the subject Property must continue to be monitored using monitoring well MW-403 to confirm declining contaminant concentration trends.

Please direct any questions you may have to Carolyn L. Daniels, P.G. of the Response and Remediation Program at (404) 657-8646.

Sincerely,

Judson H. Turner
Director
