**SUBJECT: Application for Solid Waste Handling Permit
Alpha Waste Disposal dba CR&T Recycling, LLC
319 Old Belwood Road
Calhoun, Georgia 30701
GEOS Submittal ID No. 898016**

Dear Mr. Beavers:

Your application for a Solid Waste Handling Permit, including the necessary supplemental data for your operation, has been reviewed and approved.

Solid Waste Handling Permit [064-017P(MRF)] is attached and includes conditions and limitations for your operation.

Personnel of the Georgia Environmental Protection Division will make periodic inspections of your operation. These inspections will be discussed with you or your designated representative.

This permit is now in effect; however, under Georgia law it is subject to appeal for a period of thirty (30) days following its issuance and is subject to modification or possible vacation if appealed. Should an appeal be received within the thirty (30) day appeals period, you will be immediately notified and further construction or operation under this permit may not be undertaken until such time as the appeals process is concluded.

Note that your next scheduled 5-Year Permit Review date is five years from the issuance date of the approval of this permit, unless the permit is appealed. For permits to remain in effect, applications for permit review must be filed at least six (6) months, but not more than eighteen (18) months prior to the date of the scheduled permit review.

If you have any questions regarding this permit, please contact Sarah Knapp at 470-524-0632.

Sincerely,

A handwritten signature in cursive script that reads "Lena Sassone".

DEPARTMENT OF NATURAL RESOURCES

ENVIRONMENTAL PROTECTION DIVISION

LAND PROTECTION BRANCH

Materials Recovery Facility Permit

Permittee Name: **Alpha Waste Disposal, Inc. dba CR&T Recycling, LLC**

Permittee Address: **319 Old Belwood Rd
Calhoun, Georgia 30701**

In accordance with the provisions of the Georgia Comprehensive Solid Waste Management Act, and the Rules promulgated pursuant thereto, this permit is issued for the following operation:

The construction and operation of a materials recovery facility located in Gordon County, 319 Old Belwood Rd., Calhoun, Georgia 30701 (Latitude: 34.4617 degrees N, Longitude: 84.9273 degrees W).

This permit is conditioned upon the permittee complying with the attached conditions of operation, which are hereby made a part of this permit.

All statements in the application and supporting evidence, information, and data submitted to the Environmental Protection Division of the Department of Natural Resources have been evaluated, considered and relied upon in the issuance of this permit.

This permit is now in effect; however, under Georgia law it is subject to appeal for 30 days following issuance and is subject to modification or revocation on evidence of noncompliance: (i) with any provision of the Act or of the Rules promulgated pursuant thereto; or (ii) with any representation made in the above mentioned application or the statements and supporting data entered therein or attached thereto; or (iii) with any condition of this permit.

Jeffrey W. Cown

Jeffrey W. Cown, Director
Environmental Protection Division

Permit No. 064-017P(MRF)

**Issued to: Alpha Waste Disposal Inc. dba CR&T Recycling, LLC
Materials Recovery Facility**

Conditions for Materials Recovery Facility

1. This permit is valid for the location listed above and is not transferable to any other location.
2. The operation of the facility and erosion control measures to be implemented shall be protective of ground and surface water, and conform to:
 - a. OCGA §12-5-20, Georgia Water Quality Act
 - b. OCGA §12-7-1, Georgia Erosion and Sedimentation Act
 - c. Georgia DNR Environmental Rule 391-3-6, Georgia Water Quality Rules
 - d. Georgia DNR Environmental Rule 391-3-7, Erosion and Sedimentation Rules
3. The facility shall not restrict the flow of the 100-year flood, reduce the temporary water storage capacity of the floodplain, or result in a washout of solid waste or material so as to pose a hazard to human health and the environment. Solid waste handling activities shall not be performed in areas of the property considered to be within the 100-year floodplain.
4. Solid waste handling operations shall not be conducted in any wetlands, as defined by the United States Corps of Engineers, unless evidence is provided to the Director, by the applicant, that use of such wetlands has been permitted or otherwise authorized under all other applicable state and federal laws and rules.
5. No radioactive waste, asbestos containing material, polychlorinated biphenyls (PCB) waste as defined in the Code of Federal Regulation, 40 CFR Part 761, regulated quantities of hazardous waste or any other prohibited waste as specified in section 391- 3-4-.04 of the Rules for Solid Waste Management may be handled or stored at the facility.
6. The Permittee shall comply with all other applicable state and local laws, rules and ordinances which are not incorporated as conditions of this Permit, but which are separately enforced by the relevant state or local agency with jurisdiction.
7. The Permittee shall comply with the location restrictions and site limitations, the design criteria, and the closure criteria required by the Rules for Solid Waste Management, Chapter 391-3-4-.05, 391-3-4-.09 and 391-3-4-.11 respectively.
8. Operations shall be conducted at all times in such a manner as to prevent air, water, and land pollution as well as public health hazards and nuisances.
9. Prior to receipt of waste, a professional engineer licensed to practice in Georgia shall provide the Division with written certification that the facility has been constructed in accordance with the permit and the approved design and operational (D&O) Plan.

Permit No. 064-017P(MRF)

**Issued to: Alpha Waste Disposal Inc. dba CR&T Recycling, LLC
Materials Recovery Facility**

Conditions for Materials Recovery Facility

10. The D&O Plan approved by the Environmental Protection Division (Division) for this facility on September 17, 2025, is hereby made a part of this permit and this facility shall be designed, constructed and operated in accordance with the approved plan. Conditions of this permit supersede any provisions of the plan which may conflict.
11. Operation and management of waste processing shall at all times be under the supervision and control of a responsible individual properly trained in such processes.
12. Access shall be limited to authorized entrances that shall be closed when the facility is not in operation.
13. Signs shall be posted at the entrance to the facility stating the days and hours of operation, the types of materials accepted for processing, and a contact number for a facility operator.
14. All loading and unloading of waste shall be confined to the designated receiving areas shown in the D&O Plan. The enclosed processing structure must prevent precipitation from reaching solid waste and control litter, liquid runoff, dust, and odors.
15. Unprocessed waste shall be restricted to the receiving bays and processing facility. In no case shall unprocessed waste be deposited or stored outside of the facility or be allowed to scatter to the outside.
16. Non-recoverable solid waste shall be segregated and stored per the D&O Plan. No solid waste may remain on site for longer than 72 hours and must be properly disposed of at a permitted disposal site. Non-recoverable solid waste shall be handled at all times in such a manner as to prevent air, water, and land pollution, as well as public health hazards and nuisances
17. Equipment for fire control shall be available in proper working condition near the designated waste-receiving and processing areas, and near the processed solids storage area at all times.
18. The facility shall be maintained in a clean and sanitary condition. Floors shall be kept clean and well drained. Accumulation of putrescible materials and rubbish shall be controlled in a manner so as to minimize odors and prevent infestation by insects or rodents, and insect and rodent control measures shall be applied as necessary. Sanitary facilities shall be provided for employees and shall be kept clean and in good repair
19. No process or domestic wastewater shall be generated by the MRF facility operations, except in accordance with the approved plan. Any spills, leaks, or free liquids emanating from waste handled at the facility shall be contained within the permitted areas and promptly remediated. In no event shall wash water or free liquids contaminated by waste be discharged to storm drains or otherwise released to the environment.

Permit No. 064-017P(MRF)

**Issued to: Alpha Waste Disposal Inc. dba CR&T Recycling, LLC
Materials Recovery Facility**

Conditions for Materials Recovery Facility

20. The Division shall be notified of any fires, explosions, or releases to the environment that occur at the facility by telephonic communication no more than twenty-four (24) hours after occurrence and in writing no more than five (5) days after occurrence. The 24-hour Emergency Response phone number is (800) 241-4113.
21. Records documenting compliance with the Rules for Solid Waste Management shall be kept for a minimum of five (5) years from the date of the record and be in a form suitable for submission or inspection by the Division.
22. The facility shall be closed in accordance with the Rules for Solid Waste Management Chapter 391-3-4-.11 and the approved Closure Plan in the D&O Plan. Upon completion of the closure activities, the Permittee shall submit to the Director a closure report prepared by a professional engineer, registered in Georgia, certifying that closure activities have been completed for this facility in accordance with this Permit. If the Director concurs with the closure report, closure will be deemed complete.
23. The Permittee shall fully satisfy all applicable financial responsibility requirements for closure in accordance with Solid Waste Rule 391-3-4-.13.
24. The amount of material to be stored and processed as listed on the closure cost estimate of the approved D&O Plan shall not be exceeded at any time.
25. Coverage under this permit shall automatically terminate unless construction of the materials recovery facility has commenced within three hundred sixty-five (365) days and completed within seven hundred thirty (730) days.
