Description and Location of Proposed Activity:

To ensure compliance with the *Georgia Safe Dams Act*, this project will consist of filling the *existing* emergency spillway with soil to the top-of-dam elevation, re-grading the slopes of the dam (3.5H:1V) and constructing a *new* primary outlet structure and spillway (i.e., concrete labyrinth weir) along Frank C. Amerson Jr. Lake at Bass Road in Macon-Bibb County. All disturbed areas will be restored to current conditions to the extent practicable. The proposed project will result in approximately 450 linear feet total (10,880 square feet total) of buffer disturbances along Frank C.
