Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. § 12-7-1 et seq.

Description and Location of Proposed Activity:

This project proposes to impact 100 total linear feet (2,486 total square feet) of stream buffer with one impoundment along an unnamed tributary to Mountain Creek. Accumulated sediments over the years have washed downstream into the impoundment reducing storage and increasing flood hazards to adjacent property. Impacts are for dredging in two separate areas along the impoundment to return the impoundment to its original storage capacity, integrity, and function. The project is located off Smokey Road in the Middle Chattahoochee-Lake Harding Watershed (03130002).

Name and Address of Permit Applicant: Mr. Neal Kennedy
5319 Smokey Road
Newnan, GA 30263

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
