Notice Close Date

BV-044-23-16  
Control Number

DWM Reverse Gwinnett Flows  
(GPS Coordinates: 33.8610, -84.1792)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch File Room, 2 MLK Jr. Drive, SW, West Tower, Balcony, Suite 418, Atlanta, GA 30334. Please contact [GORArequest.Water@dnr.ga.gov](mailto:GORArequest.Water@dnr.ga.gov) to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Comments may be submitted via e-mail to: [EPDcomments@dnr.ga.gov](mailto:EPDcomments@dnr.ga.gov). Comments may also be provided in writing to: Program Manager, Nonpoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1452 East, Atlanta, GA 30334. The words “Buffer Variance Comment”, including the Control Number shown above, should be placed in the e-mail subject line (if sent via e-mail) or on the top of the first page of written comments to ensure that your comments will be forwarded to the appropriate staff.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. § 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.05 (2)(a-k)}: (d)

Description and Location of Proposed Activity:

The proposed sewer project intends to redirect flows from Lucky Shoals Creek and Camp Creek sewersheds within Gwinnett and DeKalb County. The project features construction of three new lift stations, decommissioning of four current lift stations, and installation of new gravity sewer line. Land disturbing activities include clearing, grubbing, open-cut trenching, line installation, and BMPs. These impacts total 43,739 square feet along 4,684 linear feet within the buffers of an unnamed tributary to Camp Creek and an unnamed tributary to Lucky Shoals Creek. The project is within the Upper Ocmulgee Watershed (03070103) and disturbed areas will be restored to the extent practicable upon completion of the project.

Name and Address of Permit Applicant: Ramesh Gehi  
DeKalb County Department of Watershed Management  
178 Sams Street  
Decatur, GA 30080

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
