Description and Location of Proposed Activity:

The proposed project involves the construction of new sidewalk, curb and gutter, and roadway drainage structures. A portion of buffer disturbance will include permanent impacts (pipe/fill) to State Waters. Disturbance of the buffer is necessary in order to address pedestrian connectivity and safety from New Snapfinger Woods Drive to Friendly Hills Drive. A Buffer Mitigation Plan and erosion control measures will be implemented to address major impacts. The proposed project will result in 1,054 total linear feet (29,623 total square feet) of buffer disturbance lasting approximately 18 months. The project is located on two unnamed tributaries to Snapfinger Creek of the Upper Ocmulgee Watershed (03070103).
