Description and Location of Proposed Activity: The project is located 8 miles south of the city of Guyton at the intersection of SR 17 and Blue Jay Road. The proposed project will turn the existing intersection into a double-lane roundabout. The buffer zone for the roadside stream "Jurisdictional Ditch 4" (JD4) will be impacted due to the need to re-construct and re-align roadside slopes, and some portions of the channel of JD4 will be re-constructed and re-aligned. Post construction the buffer zone will largely be returned to its pre-construction state which consists of grass vegetation and paved roadway.
