Notice Close Date

BV-056-22-02
Control Number

MBS at Trilith Phase II
(GPS Coordinates: 33.476824, -84.512904)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch, 200 Piedmont Avenue SW, Suite 418 West, Atlanta, GA 30334. Please contact Ms. Arnettia Murphy at (404) 656-4147 or email arnettia.murphy@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1462 East, Atlanta, GA 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7.05 (2)(a-k)}: (h)

Description and Location of Proposed Activity:

This project will result in construction located within the buffer. The proposed project will result in warehouses and offices to include supporting infrastructure impacting 733 linear feet and 36,189 total square feet of buffer disturbance lasting approximately six months. The proposed project is located at an unnamed intermittent stream, a tributary upstream of Whitewater Creek in the Upper Flint River Watershed (03130005).

Name and Address of Permit Applicant: Ms. Virginia Hernandez
Trilith Studio Holdings, LLC
461 Sandy Creek Road
Fayetteville, GA 30214

Summary of Rules Requirements for Variance Application:

The application for a variance must include an approved Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
