

ENVIRONMENTAL PROTECTION DIVISION  
PUBLIC NOTICE  
WATERSHED PROTECTION BRANCH

August 14, 2024  
Notice Issue Date

Milton / Fulton  
City / County

September 12, 2024  
Notice Close Date

BV-060-24-20  
Control Number

The Park at Former Milton Country Club  
(GPS Coordinates: 34.1496, -84.3081)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch File Room, 2 MLK Jr. Drive, SW, West Tower, Balcony, Suite 418, Atlanta, GA 30334. Please contact [GORArequest.Water@dnr.ga.gov](mailto:GORArequest.Water@dnr.ga.gov) to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Comments may be submitted via e-mail to: [EPDcomments@dnr.ga.gov](mailto:EPDcomments@dnr.ga.gov). Comments may also be provided in writing to: Program Manager, Nonpoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1452 East, Atlanta, GA 30334. The words “Buffer Variance Comment”, including the Control Number shown above, should be placed in the e-mail subject line (if sent via e-mail) or on the top of the first page of written comments to ensure that your comments will be forwarded to the appropriate staff.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. § 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.05 (2)(a-k)}: (a) & (f)

Description and Location of Proposed Activity:

The proposed project involves the removal and replacement of existing structural stormwater management infrastructure with nature-based infrastructure, the restoration of stream channels, and the construction of a new boardwalk trail for public use. Disturbance of the buffer is necessary in order to convert the former golf course into a passive recreational park and nature preserve as a part of the City of Milton’s Greenspace Plan, “The Greenprint”. Project implementation will provide passive recreational opportunities for the public and promote the return of the landscape’s natural hydrologic flow and function. A Buffer Mitigation Plan and erosion control measures are implemented to address major impacts. The proposed project will result in 884 total linear feet (10,983 total square feet) of buffer disturbance lasting approximately 6 months. The project is located on two unnamed impoundments and two unnamed tributaries to Chicken Creek of the Etowah Watershed (03150104).

Name and Address of Permit Applicant: Scott Tkach  
City of Milton Public Works Department  
2006 Heritage Walk  
Milton, Georgia 30004

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
