

ENVIRONMENTAL PROTECTION DIVISION
PUBLIC NOTICE
WATERSHED PROTECTION BRANCH

March 7, 2025
Advisory Issue Date

Fulton County
City/County

April 7, 2025
Advisory Close Date

BV-060-25-06
Control Number

I-285 From SR 14 to Mt. Gilead Road
(GPS Coordinates: 33.659634, - 84.497678)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch File Room, 2 MLK Jr. Drive, SW, West Tower, Balcony, Suite 418, Atlanta, GA 30334. Please contact GORArequest.Water@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Comments may be submitted via e-mail to: EPDcomments@dnr.ga.gov. Comments may also be provided in writing to: Program Manager, Nonpoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1452 East, Atlanta, GA 30334. The words "Buffer Variance Comment", including the Control Number shown above, should be placed in the e-mail subject line (if sent via e-mail) or on the top of the first page of written comments to ensure that your comments will be forwarded to the appropriate staff.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. § 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7.05 (2)(a-k)}: (a)

Description and Location of Proposed Activity:

The proposed project is a rehabilitation project located in Atlanta, Georgia that extends from State Route (SR) 14 to Mt. Gilead Road, approximately 3 miles northwest of Hartsfield-Jackson Airport. The project length is 6.47 miles and will impact 105 linear feet (1599 square feet) of buffer adjacent to perennial stream (PS) 25, an unnamed tributary to Camp Creek and intermittent stream (IS) 42, an unnamed tributary to South Utoy Creek within the Middle Chattahoochee-Lake Harding watershed (HUC 03130002) and the Upper Flint watershed (HUC 03130005). Buffer disturbance includes the installation of erosion control best management practices, grading for the installation of a type-2S barriers and construction access, and roadway reconstruction associated with the repaving of sections of I-285.

Name and Address of Permit Applicant: Mr. Eric Duff
 Georgia Department of Transportation
 Office of Environmental Services
 600 W. Peachtree Street, NW, 16th Floor
 Atlanta, Georgia 30308

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
