PUBLIC NOTICE
WATERSHED PROTECTION BRANCH

July 10, 2025
Notice Issue Date

Sandy Springs/Fulton County
City / County

August 11, 2025
Notice Close Date

BV-060-25-18
Control Number

Tera Lee Lake Dam Rehabilitation
(GPS Coordinates: 33.8995,-84.3936)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch File Room, 2 MLK Jr. Drive, SW, West Tower, Balcony, Suite 418, Atlanta, GA 30334. Please contact GORArequest.Water@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Comments may be submitted via e-mail to: EPDcomments@dnr.ga.gov. Comments may also be provided in writing to: Program Manager, Nonpoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1452 East, Atlanta, GA 30334. The words “Buffer Variance Comment”, including the Control Number shown above, should be placed in the e-mail subject line (if sent via e-mail) or on the top of the first page of written comments to ensure that your comments will be forwarded to the appropriate staff.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. § 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.05 (2)(a-k)}: (a)

Description and Location of Proposed Activity:

This project will rehabilitate a Category I High Hazard Potential dam to include structural improvements to the auxiliary spillway. State Water buffer impacts include embankment and streambank slope revegetation necessary to improve and maintain structure integrity and comply with current regulations. After rehabilitation, the normal pool elevation will be reduced from 928.6 FT to 910.0 FT and Top of Dam elevation from 933.3 FT to 921.5 FT and streambank slopes will be stabilized with vegetation. The proposed project will result in 124 total linear feet (3,644 total square feet) of buffer disturbance on Bereznay and Lee Lake Dam, located on an unnamed tributary to Long Island Creek in the Upper Chattahoochee Watershed (03130001).

Name and Address of Permit Applicant(s): Mr. Marc Pollack
5225 Long Island Dr
Sandy Springs, GA 30327

Mr. Mike Johnson
250 Burdette Rd
Sandy Springs, GA 30327

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
