

ENVIRONMENTAL PROTECTION DIVISION
PUBLIC NOTICE
WATERSHED PROTECTION BRANCH

December 20, 2024
Advisory Issue Date

Gwinnett County
City/County

January 19, 2025
Advisory Close Date

BV-067-24-19
Control Number

State Route 316 from East of County Road (CR) 186/Cedars Road to West of
Sugarloaf Parkway
(GPS Coordinates: 33.981727, -83.925083)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch File Room, 2 MLK Jr. Drive, SW, West Tower, Balcony, Suite 418, Atlanta, GA 30334. Please contact GORArequest.Water@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Comments may be submitted via e-mail to: EPDcomments@dnr.ga.gov. Comments may also be provided in writing to: Program Manager, Nonpoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1452 East, Atlanta, GA 30334. The words "Buffer Variance Comment", including the Control Number shown above, should be placed in the e-mail subject line (if sent via e-mail) or on the top of the first page of written comments to ensure that your comments will be forwarded to the appropriate staff.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. § 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7.05 (2)(a-k)}: (a) & (h)

Description and Location of Proposed Activity:

The proposed project will impact the buffer of Intermittent Stream (IS) 1, IS 4 IS 5, Perennial Stream (PS) 6, IS 6A, PS 7, IS 8, PS 13, IS 15, IS 17, PS 17A, IS 21, PS 22B, PS 24, PS 25, and IS 26. The project will construct two, grade-separated interchanges on State Route (SR) 316 at the existing at-grade intersections of Hurricane Trail and US Highway 29/SR 8/Winder Highway in Gwinnett County. The project will impact the state mandated 25-ft buffer within the Upper Ocmulgee Watershed (HUC 03070103). The disturbance will cover 89,364 square feet and include grading and fill for roadside slopes, pipe installation/extensions, culvert construction/extension, construction of the relocated IS 4 channel, relocation of IS 8 in an earthen ditch due to construction of a roadway ramp, relocation of PS 24 into earthen ditches and drainage pipes that would outfall into an existing stream channel, relocation of IS 26 into a non-erodible ditch which would be conveyed through a pipe and outfall into PS 27, clearing and grubbing for construction access, and the installation of Best Management Practices (BMPs).

Name and Address of Permit Applicant: Mr. Eric Duff
Georgia Department of Transportation
Office of Environmental Services
600 W. Peachtree Street, NW, 16th Floor
Atlanta, Georgia 30308

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
