

ENVIRONMENTAL PROTECTION DIVISION  
PUBLIC NOTICE  
WATERSHED PROTECTION BRANCH

May 4, 2020  
Notice Issue Date

Louisville / Jefferson County  
City / County

June 3, 2020  
Notice Close Date

BV-081-20-01  
Control Number

City of Louisville – Sewerage System Improvements – Pump Station  
McBride Street / State Route 24 (GA-24), Louisville, GA 30434  
(GPS Coordinates: 33.004574, -82.383934)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch, 200 Piedmont Avenue SW, Suite 418 West, Atlanta, GA 30334. Please contact Ms. Arnettia Murphy at (404) 656-4147 or email [arnettia.murphy@dnr.ga.gov](mailto:arnettia.murphy@dnr.ga.gov) to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1462 East, Atlanta, GA 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.05 (2)(a-k)}: (a)

Description and Location of Proposed Activity:

The proposed project will consist of removing an existing sewerage pump station and constructing a new sewerage pump station (including all associated equipment, fencing and a concrete pad) along State Route 24 (GA-24) near Manson Branch Bridge in Louisville. All disturbed areas will be returned to original grade and stabilized with mulching and permanent vegetation and restored to current conditions to the extent practicable. This project will result in approximately 35 linear feet total (408 square feet total) of buffer impacts along Manson Branch in the Upper Ogeechee Watershed.

Name and Address of Permit Applicant: Richard T. Sapp, City Administrator  
City of Louisville  
1011 Peachtree Street  
P.O. Box 527  
Louisville, GA 30434

Summary of Rules Requirements for Variance Application:

The application for a variance must include an approved Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
