WATERSHED PROTECTION BRANCH

December 11, 2023
Notice Issue Date

Spalding County
City / County

January 10, 2024
Notice Close Date

BV-126-23-02
Control Number

Kayak Launch – Blalock Fire Station and Line Creek Road
(GPS Coordinates: (33.2440, -84.4289) & (33.2279, -84.4390))

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch File Room, 2 MLK Jr. Drive, SW, West Tower, Balcony, Suite 418, Atlanta, GA 30334. Please contact GORArequest.Water@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Comments may be submitted via e-mail to: EPDcomments@dnr.ga.gov. Comments may also be provided in writing to: Program Manager, Nonpoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1452 East, Atlanta, GA 30334. The words “Buffer Variance Comment”, including the Control Number shown above, should be placed in the e-mail subject line (if sent via e-mail) or on the top of the first page of written comments to ensure that your comments will be forwarded to the appropriate staff.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. § 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.05 (2)(a-k)}: (a)

Description and Location of Proposed Activity:

The proposed project involves the installation of two public kayak launch points. Disturbance of the buffer is necessary in order to improve public access to the Flint River for recreational purposes and reduce erosion caused by the informal recreational use of the bank and buffer. A Revegetation Plan and erosion control measures are implemented to address major impacts. The proposed project will result in 78 total linear feet (2,009) total square feet of buffer disturbances lasting approximately 3 months. The project is located on the Flint River of the Upper Flint Watershed (03130005).

Name and Address of Permit Applicant: Greg Stansell
Spalding County Parks Maintenance
1515 Williamson Road, Suite A
Griffin, Georgia 30224

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
