

## CATEGORICAL EXCLUSION DETERMINATION

Water Main Extension  
Juliette Area Water System  
Monroe County, Georgia, WSID# 2070074  
ARPA SFRF Grant# GA-0007373

The Georgia Environmental Protection Division (EPD) has conducted a review of the above subject project in accordance with the State's Environmental Review Process (SERP) for Drinking Water State Revolving Fund (DWSRF) projects. The EPD has determined that this project is eligible for a categorical exclusion. Accordingly, the EPD is exempting the project from further substantive environmental review requirements under Georgia's SERP.

The proposed project includes the installation of +/-68,000 L.F. of 12" D.I. water main, +/-80,000 L.F. of 8" D.I. water main, and +/- 10,000 L.F. of 6" D.I. water main in the Juliette Water System. These water mains will be constructed within existing Georgia State Highway / County Road right of way for the extents of the project. The Juliette Water System is an extension of WSID 2070074. The drinking water supplied to the Juliette Water System is purchased from the Macon Water Authority.

This project is eligible for a Categorical Exclusion because it meets the following criteria, outlined in the DWSRF: Construction of new water lines, valves, hydrants, and appurtenances in previously disturbed areas within ½ mile of the existing distribution system and storage facilities for purpose of system reliability, both serving primarily existing residential or commercial users. Furthermore:

- The project will not require issuance of a new or modification of an existing ground water or surface water withdrawal permit;
- The project is not known or expected to have a significant adverse effect on the quality of the human environment, either individually, cumulatively over time, or in conjunction with other Federal, State, local or private actions;
- The project is not known or expected to directly or indirectly have a significant adverse effect on: or threatened species; or environmentally important natural resource areas, such as floodplains, wetlands, important farmlands or aquifer recharge areas; and cultural resource areas, such as archaeological and historic sites; habitats of endangered species;
- The action is cost-effective and is not expected to cause significant public controversy.

This determination shall become effective after thirty (30) days following its distribution by EPD and can be revoked if significant adverse information is made available. The documentation to support this decision is on file with the Georgia Environmental Protection Division and is available for public scrutiny upon request. A copy of the proposed project documentation is also available for review at the County Hall in Georgia.

All interested agencies, groups and persons supporting or disagreeing with this decision are invited to submit written comments, within thirty (30) days of the publish date of this notice to:

Georgia Environmental Protection Division  
ATTN: Disha Thakkar, Environmental Engineer  
Drinking Water Program  
2 Martin Luther King, Jr. Drive, SE, Suite 1470a East  
Atlanta, Georgia 30334-9000

After evaluating the comments received, EPD will make a final decision regarding approval of the project planning documents. No administrative action will be taken on the project for thirty (30) calendar days after publication of this Notice in a local newspaper that serves the County's Area.
