**NOTICE OF NO SIGNIFICANT IMPACT ON THE ENVIRONMENT  
TO ALL INTERESTED AGENCIES, GROUPS, AND PERSONS**

The City of Midway has made an application to the Georgia Environmental Facilities Authority (GEFA) and the Georgia Department of Natural Resources, Environmental Protection Division (EPD) for a loan through the Drinking Water State Revolving Loan Fund (DWSRF). The loan is to construct a new well, to install a backup generator, and to update the SCADA system and related appurtenance. The applicant has certified that the project is environmentally sound. As required by the Federal Safe Drinking Water Act and the Drinking Water State Revolving Fund Program Guidelines, an environmental review has been performed on the project described below:

Project Name:	City of Midway – Charlie Butler Road Well
Project Location:	Liberty, Georgia
Total Project Cost:	\$1,220,000
Anticipated DWSRF Loan Amount:	\$1,220,000

**Project Description**

Under this project, The City of Midway will construct a 1,000 GPM Upper Floridan Well to alleviate low pressure and chlorine residual problems and provide reliability and redundancy. The one and only well is over 40 years old and produce 300 GPM. A back up well is needed.

**Anticipated Impacts**

The proposed project will have minimal impact on the environment. A backup well is needed to provide reliability and redundancy to the one and only existing well. Also, the additional water supply will help to meet the current and future water demand. The overall impact of the proposed project will be beneficial. There will be no significant adverse secondary impacts associated with the project.

A review of the Engineering Report and Environmental Information Document for the proposed project has been performed by EPD's Drinking Water Permitting and Engineering Program. A copy of these documents is available for public examination upon request at EPD between the hours of 8:30 a.m. and 4:00 p.m. Monday through Friday. The addresses where a copy is available are listed below.

During the development and design of this project, the City of Midway has solicited public input. The project has undergone an Executive Order 12372 Review through the State agencies. The project has also been submitted to the Corps of Engineers, State Historic Preservation Office, and the U.S. Fish and Wildlife Service for review. No adverse comments have been received. No further environmental review of the project is proposed to be conducted prior to the release of loan funds.

All interested agencies, groups and persons supporting or disagreeing with this decision are invited to submit written comments, within thirty (30) days of the issuance date of this notice to:

Georgia Environmental Protection Division  
ATTN: Duplex Tchinda, Environmental Engineer  
Drinking Water Program  
2 Martin Luther King, Jr. Drive, SE - Suite 1362 East  
Atlanta, Georgia 30334-9000

After evaluating all comments received, EPD will make a final decision regarding approval of the project planning documents. No administrative action will be taken on the project for thirty (30) calendar days after issuance of this Notice.

Issue Date: 10/21/2020

Manny Patel  
Drinking Water Program Manager  
Watershed Protection Branch  
Georgia Environmental Protection Division
