September 12, 2024
Notice Close Date

CMV-063-24-04
Control Number

323 W 31st Street Sea Island Shoreline Protection
(GPS Coordinates: 31.2047, -81.3289)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch File Room, 2 MLK Jr. Drive, SW, West Tower, Balcony, Suite 418, Atlanta, GA 30334. Please contact GORArequest.Water@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Comments may be submitted via e-mail to: EPDcomments@dnr.ga.gov. Comments may also be provided in writing to: Program Manager, Nonpoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1452 East, Atlanta, GA 30334. The words “Buffer Variance Comment”, including the Control Number shown above, should be placed in the e-mail subject line (if sent via e-mail) or on the top of the first page of written comments to ensure that your comments will be forwarded to the appropriate staff.

Type of Permit Application: Variance to encroach within the 25-foot Coastal Marshlands buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. § 12-7-6 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.11 (2)(a-k)}: (a)

Description and Location of Proposed Activity:

The proposed project involves the installation of 187 linear feet of wooden bulkhead placed landward of the Coastal Marshland Protection Act jurisdictional determination. Disturbance of the buffer is necessary in order to reduce deterioration of the shoreline and provide protection to the existing residential home and assets. No additional impervious surfaces will be constructed within 25 feet of the proposed bulkhead. The buffer disturbance area will be revegetated with native marshland vegetation upon project completion. The proposed project will result in 187 total linear feet (1,197 total square feet) of coastal marshland buffer disturbance. The project is located off of W 31st Street in the Altamaha Watershed (03070106).

Name and Address of Permit Applicant: Wilson Moore
Innisfree LLC.
4315 Tuckahoe Road
Memphis, Tennessee 38117

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
