McIntosh County
City / County

September 23, 2025
Notice Close Date

CMV-098-25-02
Control Number

Tolomato Stabilization
(GPS Coordinates: 31.4392, -81.3725)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch File Room, 2 MLK Jr. Drive, SW, West Tower, Balcony, Suite 418, Atlanta, GA 30334. Please contact GORArequest.Water@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Comments may be submitted via e-mail to: EPDcomments@dnr.ga.gov. Comments may also be provided in writing to: Program Manager, Nonpoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1452 East, Atlanta, GA 30334. The words “Buffer Variance Comment”, including the Control Number shown above, should be placed in the e-mail subject line (if sent via e-mail) or on the top of the first page of written comments to ensure that your comments will be forwarded to the appropriate staff.

Type of Permit Application: Variance to encroach within the 25-foot Coastal Marshlands buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. § 12-7-6 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.11 (2)(a-k)}: (a)

Description and Location of Proposed Activity:

The proposed project features construction of a bulkhead along a private property on Tolomato Island in McIntosh County. Land disturbing activities within the buffer of an unnamed tributary of Hudson Creek include clearing, bulkhead installation, and backfilling. The bulkhead is intended to reduce the amount of erosion along the coastal marshland – upland interface and encourage bank stabilization. The project requires 2,420 square feet along 160 linear feet of disturbance. The property is located within the Ogeechee Watershed (03060204). Disturbed areas will be revegetated with multi-trophic, native riparian vegetation.

Name and Address of Permit Applicant: Thornton Morris
TWM Jr. Holdings, LLC
1775 The Exchange SE, Suite 130
Atlanta, GA 30339

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
