Savannah, Chatham County, Georgia
Tax Parcel ID#1-0720-01-002

Dear Ms. Hill:

The Georgia Environmental Protection Division (EPD) has reviewed the Rheem Manufacturing letter entitled Voluntary Remediation Plan Status Update, received on November 2, 2018. The letter describes delays in establishing an off-site access agreement with Norfolk Southern and requests an extension to complete field work and submit a revised compliance status report (CSR). The extension is hereby granted.

The Voluntary Remediation Plan Status Update indicated that additional soil and groundwater sampling will be conducted on the Norfolk Southern Property. Please note that the EPD comment letter dated April 18, 2018 requested the collection of additional soil samples on the Norfolk Southern property. However, EPD did not request the collection of additional groundwater samples on the Norfolk Southern property and does not anticipate the receipt of this data in the next VRP submittal. Please submit the next VRP submittal by April 18, 2019.

If you have any questions, please contact Michael Smilley at 404-463-0530.

Sincerely,

A handwritten signature in blue ink that reads "David Hayes".

David Hayes
Unit Coordinator
Response and Remediation Program
