Dear Messrs. Glade and Magill:

The Georgia Environmental Protection Division (EPD) has reviewed the Voluntary Remediation Program (VRP) Semi-Annual Status Report for the former Oxford Chemical Site dated March 31, 2016. EPD concurs that all potential exposure pathways have been adequately addressed under the VRP, upon recording of the Uniform Environmental Covenant (UEC) referred to in the report. In addition, EPD concurs with the justification for no further monitoring at the site. Please proceed with submittal of the VRP CSR which should include the fully executed Uniform Environmental Covenant (UEC).

Should you have any additional questions or concerns please contact Robin Futch, P.G. at (404) 657-8686.

Sincerely,

Robin Futch, P.G.  
Acting Unit Coordinator  
Response and Remediation Program
