**RE: Crisp County – U.S. 41S Site 2 MSW Landfill
Annual CCR Management & Dust Control Report
Permit No. 040-008D(MSWL)
LE 08525.16**

Dear Ms. Naji:

On behalf of Crisp County we are submitting this as a copy of the annual update report to the subject facility's CCR management and fugitive dust control plan.

To date, the subject facility has not begun receiving CCR from any customers. There is no list of sources or types of CCR to report. There have been no leachate outbreaks related to CCR or citizen complaints related to CCR dust control received. Additionally, local governments within the county were previously notified of the CCR modification at the time of plan submittal.

At this time, the facility is not proposing changes to its permitted operational practices, or adding additional CCR customers or other types of CCR, or otherwise deviating from the approved D&O plans. Therefore, the facility is not submitting an amended plan and requests this annual report be accepted.

Please contact me at 229-438-0522 if you have any questions or need additional information.

Sincerely,

A handwritten signature in black ink that reads 'Tod Lanier'.

Tod Lanier, PE
President
