Subject: Reclassification and Removal of Site from the Hazardous Site Inventory
Martin Marietta Aggregates Camak Quarry, HSI #10409
7856 Highway 80 North (also known as 4236 Washington Highway NE)
Thomson, Warren County, Georgia

Dear Mr. Walton:

The Georgia Environmental Protection Division (EPD) has reviewed the Revised Compliance Status Report Update (CSR) dated February 15, 2017, the Certification of Compliance dated February 10, 2017, and the Uniform Environmental Covenant (UEC) executed on June 5, 2017, for the above referenced site. Based on these documents, EPD has determined that the CSR is complete and concurs with your certification of compliance that this site is in compliance with Type 1 risk reduction standards (RRS) for soil and that groundwater complies with the provisions, purposes, standards, and policies of the Georgia Voluntary Remediation Program Act (VRPA) and applicable voluntary remediation cleanup standards as referenced in OCGA 12-8-108(7). Therefore, I am reclassifying this site as a Class III site, and I am removing it from the Hazardous Site Inventory in accordance with Subparagraph 391-3-19-.05(4)(b) of the Rules for Hazardous Site Response (Rules) and Section 12-8-107(f) of the VRPA, as of the date of this letter.

As required by Subparagraph 391-3-19-.06(5)(f) of the Rules, a public notice announcing this determination shall be published in *The Warrenton Clipper* no sooner than thirty (30) days after the issuance of this letter. If you have any questions regarding this matter, please contact Susan Kibler of the Response and Remediation Program at (404) 657-7126.

Sincerely,

Richard E. Dunn
Director
