RE: Removal of Property from Hazardous Site Inventory  
ARAMARK Uniform & Career Apparel, LLC Property  
670 DeKalb Avenue (Tax Parcel 14-0020-0001-019-6), Atlanta, Fulton County, Georgia 30312  
HSI Site No. 10704 and VRP1286282662

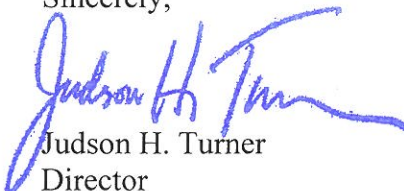

Dear Mr. Helmstetler:

The Georgia Environmental Protection Division (EPD) has reviewed the Voluntary Remediation Program (VRP) Compliance Status Report (CSR) dated November 20, 2014 for the above referenced Property, which is one of two properties listed on the Georgia Hazardous Site Inventory (HSI) as HSI #10704 (670 DeKalb Avenue Site) of which the second property was removed from the HSI in May 2014. Based on that review, I concur with your certification of compliance that soil is in compliance with Type 5 risk reduction standards (RRS) with the use of engineering and institutional controls. Furthermore, I have determined that a release to groundwater exceeding a reportable quantity did not exist at the time of enrollment in the VRP. Therefore, I am reclassifying this site as a Class III site and removing it from the Hazardous Site Inventory in accordance with §391-3-19-.05(4)(b) of the Rules of Hazardous Site Response (the Rules) and §12-8-107(f) and (g)(2) of the Georgia Voluntary Remediation Act (the Act) as of the date of this letter. As required by §391-3-19-.06(5)(f) of the Rules, a public notice announcing this determination shall be published in the Fulton County Daily Report.

ARAMARK needs to demonstrate financial responsibility for the operation and maintenance of the approved environmental cap through the use of an acceptable financial assurance (FA) instrument pursuant to the Georgia Hazardous Waste Management Act O.C.G.A. §12-8-95(c) and the Georgia VRP Act. The annual inspection and maintenance report along with the updated FA instrument is to be submitted beginning December 31, 2015 and every December 31<sup>st</sup> thereafter until such time as the environmental cap is no longer necessary to maintain soil compliance with Type 5 RRS.

Please direct any questions you may have to Carolyn L. Daniels, P.G. of the Response and Remediation Program at (404) 657-8646.

Sincerely,

Judson H. Turner  
Director
