**SUBJECT: Application for Solid Waste Handling Permit
Site Assessment Report-Draft Site Limitations
Meriwether County – TAV Holdings-Greenville Material Recovery Facility
56 Jarrell Road
Greenville, Meriwether County, Georgia
GEOS Submittal ID No. 622009**

Dear Mr. Fairchild:

The Recovered Materials and Abatement Program of the Environmental Protection Division (EPD) has completed its review of the *ALL4 LLC-Siting Assessment TAV Holdings, TAV Facility, 56 Jarrell Road Greenville, Meriwether County Georgia*, reviewed, signed and sealed by the Mula Group. Based on the data submitted, EPD has drafted "Site Limitations" which would form the basis for design of the proposed solid waste handling facility in a manner that complies with *Georgia's Rules for Solid Waste Management*, Chapter 391-3-4-.05(1). A copy of the draft site limitations is attached.

Comments on the proposed facility's site suitability report and the draft "Site Limitations" are welcome. However, if EPD is to consider such comments prior to determining if a Site Suitability Notice is warranted for this facility, comments must be received no later than 30 days from the issuance of this letter.

Please note that the issuance of a Site Suitability Notice by EPD does not constitute a permitting decision for the proposed facility and comments regarding siting issues may be considered up to the time a final permitting decision is made.

If you have any questions or wish to discuss, please contact Sarah Knapp at 470-524-0632.

Sincerely,

Sarah Visser, Chief
Land Protection Branch

Draft Site Limitations
TAV Greenville, Meriwether County
Proposed Solid Waste Handling Facility

Page 1 of 1

1. The area considered for acceptability includes the project site located at 56 Jarrell Road, in Greenville, Meriwether County, Georgia. *Appendix D, Figure 1 of the Mula Group Hydrogeologic Assessment*, depicts the location of the project site which consists of approximately 250 acres and is situated at the northwest corner of the intersection of Jarrell Road and Roosevelt Highway (GA-41).
2. Solid waste handling operations shall not be conducted in any wetlands, as defined by the U.S. Army Corps of Engineers, unless evidence is provided to the Director, by the applicant, that use of such wetlands has been permitted or otherwise authorized under all other applicable state and federal law and rules. A statement certifying that wetlands will not be impacted as a result of construction activities at the site shall be submitted. This statement shall be signed and stamped by the professional engineer responsible for the Design and Operational Plan for the subject site. Wetland areas shall be delineated on the Design and Operational Plan.
3. Solid waste handling operations at the TAV Greenville solid waste handling facility shall not restrict the flow of the 100-year flood, reduce the temporary water storage capacity of the floodplain, or result in a washout of solid waste or material so as to pose a hazard to human health and the environment. Solid waste handling activities shall not be performed in areas of the property considered to be within the 100-year floodplain.
4. Solid waste handling operations at the TAV Greenville solid waste handling facility shall conform to the Erosion and Sedimentation Control Act and be protective of the State of Georgia waters.
5. A minimum 50-foot undisturbed buffer shall be maintained between the solid waste handling operations and all streams and wetlands.
