Subject: Approval of Georgia's 2024 303(d) List Submittal

Dear Dr. Truszczyński:

The U.S. Environmental Protection Agency, Region 4, has completed its review of Georgia's Final 2024 Clean Water Act section 303(d) List of water quality limited segments. The EPA has determined that each of the water quality limited segments still requiring total maximum daily loads, identified on the State's List, meets the requirements of the Clean Water Act section 303(d) and its implementing regulations at 40 C.F.R. section 130.7. The EPA hereby approves Georgia's decision to include each of the waters designated by the State in its 2024 303(d) List. Enclosed for your information is the accompanying decision document for this approval action.

If you have questions concerning this matter, please feel free to contact me at (404) 562-9070 or Ms. Viola Reynolds, Manager, Monitoring, Assessment, Listing, and TMDL Section, at (404) 562-8455.

Sincerely,

Kathlene Butler
Director
Water Division
