Unit of Measure: [] Acre/Inches [] Gallons [] Acre/Feet
Diameter of Metered Pipe (Inches) _____ Meter is Battery Driven? []
Meter Location: [] Pivot Point [] Ground Water Source [] Surface Water Source [] Others _____
Meter Mounting (Orientation): [] Horizontal [] Vertical [] Diagonal Z [] Others _____
Pipe Type [] Aluminum [] Galvanized [] PVC [] Rubber [] Steel [] Stainless Steel [] Others _____
What is the Pipe Length Upstream _____ Inches
What is the Pipe Length Downstream _____ Inches
Were straitening Vanes Installed? []
Was a Flow Conditioner Installed? []
Was the Meter Installed Per Specification? []
If Meter not Per Specification Specify Reason _____

Please include at least two digital photos of the meter. One showing the serial number and one showing the installation with surrounding piping.

Comments

Installer Company Name _____

Name of Installer _____ Signature _____ Date _____
Please Print Name

According to the Groundwater Use Act(O.C.G.A 12-5-90) et seq., amended), all agricultural withdrawal permits must have a flow meter installed. Permits issued after July 1, 2003 MUST have a meter installed before farm water use can begin. Upon completion of water use meter installation, return this form and photo of meter with surrounding pipe to Georgia EPD, at 531 Main St. Suite D, Tifton, GA 31794. Or, scan completed form and photo and email to ag.permits@dnr.ga.gov. Please contact Georgia EPD at (229) 391-2400 for additional information or questions regarding this form.
