MEMORANDUM

To: Karen Hays, Air Branch Chief *KH*

Through: Dika Kuoh, Assistant Branch Chief

From: DeAnna Oser, Ambient Monitoring Program Manager

RE: Fulton August 7, 2020 Revised Sampling Results for Ethylene Oxide

Samples of Ethylene Oxide (EtO) were collected August 7, 2020 in the south Fulton area to characterize the EtO concentrations. The sample was sent to Eastern Research Group (ERG) for analysis. The samples had originally been marked as "AN" due to low battery issues. After recent discussions with EPA and the laboratory, a qualifier code of "LK" has been added to the July 26 sample for C2 to indicate that the sample may be biased high. The Qualifier code of "2" was previously given to the sample to indicate that the collection deviated from established procedures, but the integrity of the sample was not compromised.

Location	Date	Qualifier	EtO Concentration (ug/m ³)
F2	08/07/2020	2, LK	4.41

If you have any questions, please let me know.
