RE: General Coffee December 29, 2020 – January 16, 2021 Sampling Results for Ethylene Oxide

Samples of Ethylene Oxide (EtO) were scheduled to be collected by the Ambient Monitoring Program at our General Coffee monitoring station December 29, 2020 to January 16, 2021. Due to malfunctions with the sampling equipment, the scheduled samples were not collected and are coded with an AF accordingly. These issues have been addressed and sample collection resumed on January 22 and will be posted with the next set of data.
