

Georgia SIP Air Permit Application – Generic Asphalt Plant Permit Supplement
Instructions for the completion of this form

This form is to be completed, in accordance with the instructions below, and submitted along with the applicable forms of the Georgia SIP Air Permit application (see next page for details on which forms and fields must be filled out), when the applicant is requesting to be permitted under a Generic Asphalt Plant Permit. The latest version of this form is located at <http://epd.georgia.gov/air/sip-construction-operating-permit-applications>. **Do not submit instructions with the application.**

- Item 1: No entry required. This item identifies the type of facility that may use this application form.
- Item 2: No entry required. This item identifies any location restrictions and/or requirements associated with this permit.
- Item 3: Entry required. This item identifies facility and/or equipment design restrictions and/or requirements associated with this permit. The applicant must check the appropriate box in this section, indicating whether the plant is drum mix or batch mix and, if batch mix, whether it is to be located in one of the specified 13 Atlanta counties.
- Item 4: Signature blank provided for the Authorized Official. The Authorized Official is the person responsible for the overall operation of the manufacturing, production, or operating facilities applying for a permit, or their duly authorized representative.
- Item 5: No entry required. This item contains a list of the SIP Air Permit Application forms that must be submitted along with this form in order for this to be considered a complete application for the requested Generic Permit.
- Note: For a name change or ownership change, use the **Name Change Form** or **Change in Ownership Form** found on the Internet at <http://epd.georgia.gov/air/documents/ssppsip-app-name-change-form>. If the only permitting action being requested is a name change or ownership change, then do not include any other forms.
