RE: Georgia Power, Huffaker Road
Proposed Parcel F Coal Combustion Residual (CCR) Landfill
Rome, Floyd County, Georgia
Submittal ID: 771782

Dear Ms. McNelly:

The Solid Waste Management Program of the Environmental Protection Division (EPD) has completed its review of the July 12, 2023, *Site Acceptability Report, Addendum to Huffaker Road Landfill (Permit Number 057-022D(LI)), Parcel F Lateral Expansion – Rome, Floyd County, Georgia*, prepared by Stantec Consulting Services and visited the site on September 14, 2023. Please respond to the following comments and supply additional information as requested.

1. A legal description of the proposed Parcel F landfill permit boundary should be submitted.
2. The depth-to-water measurements for each gauging event should be added to Table 4 in the report.
3. Groundwater elevations collected on February 8, 2023, were used to develop the seasonal high potentiometric surface map shown in Figure 2.6. EPD has noted that a small group of piezometers had higher groundwater elevations on dates other than February 8, 2023. A composite potentiometric surface map should be developed using the highest groundwater elevations at any date in addition to the potentiometric surface map shown in Figure 2.6.
4. Georgia Power should indicate what is planned for the roughly 8-acre, 30-foot-thick pile of mining spoils in the northern portion of the proposed Parcel F landfill waste footprint.

Ms. Jennifer McNelly
Georgia Power
Huffaker Road – Proposed Parcel F CCR LF
