

Tire-derived Products Manufacturers & Suppliers

The following businesses supply materials and services related to tire derived products. A listing does not constitute an endorsement by EPD. Applicants may source their materials from any company. EPD may post additional contacts as they become available.

****Grant applicants may only use materials derived from scrap tires.****

It is the Tire Grant applicant's responsibility to provide manufacturer's documentation in their application that describes the TDP(s), such as a material data sheet. This should be submitted in the grant application as supporting material.
