

### NOTICE OF NO SIGNIFICANT IMPACT REAFFIRMATION

On January 22, 2021, a Notice of No Significant Impact (NONSI) was issued by the Georgia Environmental Protection Division (EPD) for the City of Adel. The project consists of the construction of a new sewer main and lift station, as well as the rehabilitation of an existing lift station.

Project Name: City of Adel  
Pump Station and Sewer System Improvements  
GEFA Loan No. CW-2021-004

Project Location: City of Adel, Cook County, GA

Total Project Cost: \$2,750,000

Anticipated SRF Loan Amount: \$2,750,000

EPD has determined that the NONSI issued on January 22, 2021 can now be reaffirmed since the project has not changed significantly from the project described in that document. The plans and specifications must demonstrate how the project will avoid impacts to the Southern Georgia Railroad as described in the Historical Preservation Division's letter dated November 3, 2020.

An Environmental Review Record concerning the proposed project has been made by the Georgia Environmental Protection Division that documents the environmental review of the project and provides more detail explaining why an environmental impact statement is not required. The Environmental Review Record is on file at the Division's address listed below. A copy of the Environmental Review and Planning Document (ERPD) is available for public review upon request at Adel City Hall during business hours and at the Division between the hours of 8:00 a.m. and 4:30 p.m.

All interested agencies, groups and persons supporting or disagreeing with this decision are invited to submit written comments within 30 days of the issuance date of this notice via email to [patrick.daugherty@dnr.ga.gov](mailto:patrick.daugherty@dnr.ga.gov) or to the following address:
