

**NOTICE OF NO SIGNIFICANT IMPACT ON THE ENVIRONMENT
TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS**

The City of Senoia has made an application to the Georgia Department of Natural Resources, Environmental Protection Division (EPD), and the Georgia Environmental Finance Authority (GEFA) for a loan through the State Revolving Fund (SRF). The project consists of the installation of 8-inch and 10-inch force main, replacement of 8-inch gravity sewer, and replacement of a pump station. The applicant has certified that the project is environmentally sound. As required by the Federal Clean Water Act, an environmental review has been performed on the project described below:

Project Name: City of Senoia
Senoia Sewer Extension and Pump Station Replacement
GEFA Loan No. CW-2022-010

Project Location: City of Senoia, Coweta County, GA

Total Project Cost: \$1,743,000

Anticipated SRF Loan Amount ^(a): \$3,000,000

(a) Loan amount covers additional components of the project that previously went through the State Environmental Review Process in 2018. The components covered under this NONSI have a total project cost of \$1,743,000.

Project Description

The City of Senoia proposes to construct approximately 3,680 linear feet (LF) of 8-inch force main, 2,470 LF of 10-inch force main, replacement of 1,130 LF of 8-inch gravity sewer with 12-inch gravity sewer, and replacement of a 700-gpm pump station.

Anticipated Impacts

The proposed project will serve the City of Senoia. Replacement of undersized sewer will accommodate existing flows and minimize inflow and infiltration. Construction of sewer and pump station replacement will serve existing developments.

Minor negative temporary impacts may include noise, dust and erosion/sedimentation associated with construction activities. Best Management Practices will be in place during construction.

The project will take place primarily on City property (or right-of-way) and/or previously disturbed land and no impacts to existing buildings are anticipated as a result of the project.

The current rates for wastewater are not anticipated to increase as a result of the project.

No anticipated adverse secondary impacts are associated with the project. Consequently, a preliminary decision not to prepare an Environmental Impact Statement has been made.

The reason for the decision not to prepare such a statement is as follows: Project activity is not anticipated to result in adverse environmental impacts beyond those that can be easily mitigated with minimal extra expense or delay in project implementation

Public Notice

A public information meeting was held on July 6, 2022, at the Senoia Municipal Complex to discuss the proposed project. No adverse comments were received during the 30-day advertisement period or during the meeting.

An Environmental Review Record concerning the proposed project has been made by the Georgia Environmental Protection Division that documents the environmental review of the project and provides more detail explaining why an environmental impact statement is not required. The Environmental Review Record is on file at the Division's address listed below. A copy of the SRF planning document is available for public review upon request at Senoia City Hall during business hours and at the Division between the hours of 8:00 a.m. and 4:30 p.m.

No further environmental review of this project is proposed to be conducted prior to the release of loan funds.

All interested agencies, groups and persons supporting or disagreeing with this decision are invited to submit written comments within 30 days of the issuance date of this notice via email to august.lutkehus@dnr.ga.gov or to the following address:

Environmental Protection Division
Watershed Protection Branch
Wastewater Regulatory Program
ATTN: August Lutkehus
2 Martin Luther King Jr. Drive
Suite 1470A East
