PURPOSE

The Georgia Environmental Protection Division (EPD) is initiating regular stakeholder workgroup meetings to review and discuss PERMIT NO. GAR050000, hereafter called the IGP. These meetings will provide stakeholders with the opportunity to engage in dialog with EPD staff to discuss the implementation of the 2022 IGP throughout the term of the permit. This second meeting will be focused on updates regarding data, Focus Group reports, changes to the Annual Report form, and potential additions to Phase II MS4s.

These stakeholder workgroup meetings will be in addition to, and not in lieu of, any public notices or public hearings associated with the reissuance or modification of the IGP.
