Subject: First VRP Progress Report
Voluntary Remediation Program
Savannah Electric - Plant Kraft, HSI Site No. 10415
155 Crossgate Road, Port Wentworth, Chatham County, Georgia

Dear Mr. Metzger:

Resolute Environmental & Water Resources Consulting, LLC (Resolute), on behalf of its client, Georgia Power Company, is submitting this First Voluntary Remediation Program (VRP) Progress Report for the former Savannah Electric - Plant Kraft (HSI Site 10415) in Port Wentworth, Georgia.

On June 15, 2018, Georgia Power Company submitted a VRP Application, including a VRP Compliance Status Report (CSR) and checklist for the above-referenced site. The Georgia Environmental Protection Division (EPD) approved the Application on October 2, 2018 and requested submittal of this First VRP Progress Report by April 2, 2019. EPD also issued a Comments Letter, dated October 2, 2018, on the VRP CSR.

Since then, Georgia Power Company has performed additional soil and groundwater assessment at the site and gathered additional documentation in response to EPD's comments. The details of these additional activities were presented in Georgia Power Company's Response to Comments letter, dated March 1, 2019, and in the VRP Revised CSR, dated, February 22, 2019. These documents were submitted under combined cover to EPD on March 21, 2019.

Two items remain to be completed: Submittal of the Environmental Covenants and the Monitoring and Maintenance Plan for EPD review, and finalization of these documents. Drafts of these documents will be submitted to EPD under separate cover prior to the due date for the Second VRP Progress Report of October 2, 2019.

Attached is a table documenting Mr. Wilson's time for direct oversight of the Revised CSR development and implementation, as the Professional Geologist on the VRP Application. Also attached is Mr. Wilson's PG Certification.

If you have any questions about this First VRP Status Report, please contact the undersigned at (678) 398-9942.

Sincerely,
Resolute Environmental & Water Resources Consulting, LLC

A handwritten signature in blue ink, appearing to read "Stephen K. Wilson".

PG CERTIFICATION

"I certify under penalty of law that this report and all attachments were prepared by me or under my direct supervision in accordance with the Voluntary Remediation Program Act (O.C.G.A. Section 12-8-101, et seq.). I am a professional engineer/professional geologist who is registered with the Georgia State Board of Registration for Professional Engineers and Land Surveyors/Georgia State Board of Registration for Professional Geologists and I have the necessary experience and am in charge of the investigation and remediation of this release of regulated substances.

Furthermore, to document my direct oversight of the Voluntary Remediation Plan development, implementation of corrective action, and long term monitoring, I have attached a monthly summary of hours invoiced and description of services provided by me to the Voluntary Remediation Program participant since the previous submittal to the Georgia Environmental Protection Division.

The information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."
