PUBLIC NOTICE NO. 2019-10ML

MAY 30, 2019

I. NOTICE OF AN APPLICATION FOR A NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT TO DISCHARGE TREATED WASTEWATER INTO WATERS OF THE STATE OF GEORGIA

NPDES permits are valid for a maximum of five years. Prior to expiration of an existing permit, a new application must be submitted and evaluated.

An antidegradation analysis is conducted, as applicable, for new or expanded point source discharges that are proposed. The analysis evaluates whether allowing lower water quality is necessary to accommodate important economic or social development in the area in which the waters are located. In all cases, existing instream water uses and the level of water quality necessary to protect the existing use is maintained and protected.

All municipalities must be in compliance with the Georgia Department of Community Affairs (DCA) Service Delivery Strategy in order to receive a permit.

Having reviewed such applications, the Environmental Protection Division (EPD) is considering the issuance of NPDES permits to the following applicants, subject to specific pollutant limitations and special conditions.
