PUBLIC NOTICE
WATERSHED PROTECTION BRANCH

June 23, 2017
Notice Issue Date

Appling, Tattnall and Toombs Counties
City / County

July 24, 2017
Notice Close Date

BV-001-17-01
Control Number

Atlanta Gas Light Company (AGL) – Natural Gas Pipeline
USF – Glennville Project (Project No. E217100600)
Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are immediately available for review and are located in the following EPD office: Watershed Protection Branch, 200 Piedmont Avenue SW, Suite 418 West, Atlanta, GA 30334. Please contact Ms. Jarell Singleton at (404) 463-2382 or email jarell.singleton@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1462 East, Atlanta, GA 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.11 (2)(a-k)}: (e), (k)(2)

Description and Location of Proposed Activity:

The proposed natural gas pipeline project will consist of replacing approximately 10.3 miles of 4" Ø steel pipe with 8" Ø steel pipe within the existing AGL rights-of-way (ROW) in Appling, Tattnall and Toombs Counties beginning at the intersection of Summerall Road and Ten Mile Road near Baxley and ending at GA Hwy 178 south of Reidsville. All disturbed areas will be restored to current existing conditions to the extent practicable. This project will result in 1,605 linear feet total (56,634 square feet total) of temporary buffer disturbances along Four Acre Creek, Little Tenmile Creek, Roaring Creek, Slaughter Creek and associated unnamed tributaries and an unnamed tributary to the Altamaha River in the Altamaha Watershed.

Name and Address of Permit Applicant:

Steve Murphy
Vice President, Engineering and Construction
AGL Resources
Ten Peachtree Place
Atlanta, GA 30309

Summary of Rules Requirements for Variance Application:

The application for a variance must include an approved Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
