

ENVIRONMENTAL PROTECTION DIVISION
PUBLIC NOTICE
WATERSHED PROTECTION BRANCH

February 2, 2018
Notice Issue Date

Bartow County
City / County

March 5, 2018
Notice Close Date

BV-008-17-04
Control Number

CR 633/Glade Road Improvements – CR 786/Wild Flower Trail to CR 782/Camp Drive
(Georgia Department of Transportation (GDOT) – PI No. 0012599)
Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch, 200 Piedmont Avenue SW, Suite 418 West, Atlanta, GA 30334. Please contact Ms. Thais Edwards at (404) 463-2382 or email thais.edwards@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1462 East, Atlanta, GA 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.11 (2)(a-k)}: (a) and (h)

Description and Location of Proposed Activity:

The proposed project will consist of road widening and shoulder and intersection improvements along a 2,220-ft section of CR 633/Glade Road from CR 786/Wild Flower Trail to CR 782/Camp Drive in Bartow County. This project will include stormwater management and treatment infiltration ponds along Glade Road north of Wild Flower Trail. The total disturbed acreage for the proposed project is approximately 7.12 acres. Construction activities (including the placement of fill) will result in buffer impacts to 483 linear feet total (8,166 square feet total) along two unnamed intermittent streams, tributaries to Lake Allatoona in the *Etowah Watershed*.

Name and Address of Permit Applicant: Tom Sills
Cartersville-Bartow Metropolitan Planning Organization
135 West Cherokee Avenue, Suite 124
Cartersville, GA 30120

Summary of Rules Requirements for Variance Application:

The application for a variance must include an approved Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
