

ENVIRONMENTAL PROTECTION DIVISION  
PUBLIC NOTICE  
WATERSHED PROTECTION BRANCH

January 17, 2018  
Notice Issue Date

Columbia County  
City / County

February 16, 2018  
Notice Close Date

BV-036-17-09  
Control Number

Columbia County - Wellington Drive – Sewerage System Improvements  
(Wellington Drive, Evans, GA 30809)  
Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch, 200 Piedmont Avenue SW, Suite 418 West, Atlanta, GA 30334. Please contact Ms. Thais Edwards at (404) 463-2382 or email [thais.edwards@dnr.ga.gov](mailto:thais.edwards@dnr.ga.gov) to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1462 East, Atlanta, GA 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.11 (2)(a-k)}: (a) and (d)

Description and Location of Proposed Activity:

This project will consist of replacing an *existing* aerial sewer line crossing and installing *new* concrete support piers and relocating an *existing* sewer line segment currently located along the streambank (exposed and susceptible to failure caused by significant erosion of the streambanks). The proposed streambank stabilization will consist of grading the eroding streambanks to a more stable slope and soil bioengineering practices (including like staking with coconut fiber rolls and joint planting/vegetative riprap and/or Filtrexx® streambank stabilization system with live stake cuttings). The proposed project will result 132 linear feet total (1,098 square feet total) of buffer impacts along Mt. Enna Branch near Wellington Drive in the *Middle Savannah Watershed* in Columbia County.

Name and Address of Permit Applicant: Eric Hinds, Manager  
Columbia County  
Water Utility Engineering and Inspection Department  
2140 William Few Parkway, Building A  
Grovetown, GA 30813

Summary of Rules Requirements for Variance Application:

The application for a variance must include an approved Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
